email address corresponding author: fulano.detal@yuju.cl

The abstracts are limited to a single printed page for contributions and two pages for invited presentations. The abstract must be submitted as a pdf-file. Please use the 'letter' format (21.59 cm x 27.94 cm) for the page size. Use top, bottom and side margins of 2.54 cm.

The font 'Times New Roman' should be used throughout the entire abstract. Use centred text, font size 12 and boldface for the abstract title, which should be followed by an empty line. Use font size 11 for the authors, and superscripts to indicate affiliations. The name of the presenting author should be in boldface. It is not a requirement that the first author should be the presenting author. The affiliations, which immediately follow the authors, should be printed in italics, font size 10. Please include the email address of the corresponding author, which is not necessarily the presenting author, in 10 pts, normal font. Title, authors and affiliation should be centered in a single column.

The affiliation is separated from the abstract body by a single empty line.

Each page of the abstract text should be written in two justified columns, separated by a 1.25 cm central margin. Use font size 11 for all the text. Paragraphs are separated by a single CR and have a 1 cm indentation in the first line.

Figures should preferably have the width of a single column, and can be placed anywhere in the abstract body.

References [1] are indicated in the text by a number between square brackets and listed at the end of the abstract as indicated in this example [2].
The reference section is headed by the

**Fig. 1** *The figure captions should have 10 pt font size, printed in italics, over the same width of a single column. The label 'Fig. n' should be printed in boldface as shown here. An empty line, font size11 should follow the figure caption, before the regular text of the abstract resumes.*

word 'References' in boldface, which should be preceded by an empty line. Please use the same font size for the references as for the main text (11 pts.). Be careful to follow the American Physical Society format (authors.aps.org/STYLE) to display the references.

The official language of the conference is Spanish; nevertheless both abstracts and oral contributions can be presented either in English or Spanish, **but not in Spanglish**.

We acknowledge contributions from grants A and B.
